

MAXXIMUM PERFORMANCE™ LUBRICANTS

FULL SYNTHETIC MOTOR OILS

Maximum Performance dexos1™ Gen3 Full Synthetic Engine Oils are premium quality multi-grade engine oils. They are designed and licensed to meet and exceed the stringent warranty requirements of General Motors dexos1™ Gen3 specifications for gasoline-fueled GM vehicles as well as meeting the warranty requirements for use in most major manufacturers of gasoline engines. **Maximum Performance dexos1™ Gen3 Full Synthetic Engine Oils** are engineered with premier base oils and advanced technology that provide outstanding performance and protection. **Maximum Performance dexos1™ Gen3 Full Synthetic Engine Oils** deliver performance beyond GM requirements such as exceptional wear protection, enhanced fuel economy, maximum protection against low speed preignition (LSPI), superior piston cleanliness, outstanding oxidation, high temperature deposit and sludge control. **Maximum Performance dexos1™ Gen3 Full Synthetic Engine Oils** exceed the requirements of API SP / Resource Conserving / ILSAC GF-6A. They are also recommended for use in flex-fueled vehicles operating with ethanol fuels up to E85.

Performance Features

- Exceptional wear protection
- Maximum protection against low speed preignition (LSPI)
- Superior piston cleanliness
- Enhanced fuel economy
- Excellent low temperature performance during cold starts
- Enhanced oxidation and sludge control
- Excellent thermal stability and resistant to viscosity breakdown
- Outstanding high temperature deposit control
- Enhanced friction properties for maximum wear protection
- Low volatility for reduced oil consumption
- Enhanced emissions system and turbocharger protection
- Outstanding protection against rust and bearing corrosion

*Backwards Compatible
REV 1.7-23
